

Extra Gnarly Upgrade for Log Furniture

If you love the gnarly, knotty character of our most prized aspen wood, you may want to choose the Extra Gnarly Upgrade.

In order to create these pieces, our wood suppliers comb the Rocky Mountain aspen forests for trees that have grown and weathered in a particular way—to create this

unique look. This type of wood is rare, and when we create an Extra Gnarly piece of furniture, the owner knows it is totally one of a kind!

This extra-cost upgrade is available on most of our aspen Mountain Woods log furniture pieces, and may require additional construction time as each piece is custom created.
