

Wildlife Art Hutch Series

Mountain Woods Furniture, in partnership with one of the West's leading specialty glass artists, brings you these distinctive and elegant rustic dining room hutch combinations.

These hutches feature soft recessed lighting to showcase your choice of five hand-soldered animal silhouettes on the frosted glass front panels. Each piece is handcrafted from characted "dead-standing" aspen wood with the same quality construction and finish as all Mountain Woods Furniture pieces.

Both the small hutch (pictured right) and the larger hutch (pictured on the reverse side) feature tempered glass shelves, two rows of recessed lighting, and soft-close door hinges. These works of art will be the focal point of your rustic dining room during the day or night, for years to come.

Model numbers and dimensions on reverse side

BT2 buffet and HT2 wildlife art hutch combination with Bear silhouette.

Eagle

Elk

Wolf

Moose

BT1 buffet and HT1 wildlife art hutch combination with Elk silhouette.

Each hutch is custom-fitted with 1/4" thick tempered glass shelves for maximum strength and full inside illumination.

All hutch and buffet doors feature soft-close hinges for gentle, positive closure.

The lower row of recessed lights under the hutch softly illuminates your dinnerware and collectibles on the buffet top.
